

FSI'S TEST PREPARATION MANUAL (TPM) 8th Edition FOR ENTRY – LEVEL FIREFIGHTERS

The **New Hampshire Firefighter** test consists of two components: A reading ability component and a cognitive ability component. The reading ability component will account for 72% of the test. All test items from the reading ability component will come directly from the Test Preparation Manual (TPM) 8th Edition consisting of five chapters describing information needed to succeed as an entry-level firefighter. Candidates typically study this Manual for 3 to 6 weeks and then take a multiple-choice test measuring their retention of the material in the Manual. **Remember 72% of test questions come directly from this Manual**, so the more familiar the candidate is with the TPM, the higher their score may be on the test. Purchasing this Manual is recommended for taking the test. The additional 28 cognitive items will be in the form of word problems, math problems and will not be covered with the TPM manual. **Remember the TPM manual is strongly advised.**

**The TPM can be picked up and purchased at the
NH Fire Academy in Concord for \$15.00.**
